

Short *curriculum vitae* of Dr. Vladan Čelebonović

Dr. Vladan Čelebonović was born in Belgrade on October 8, 1955. He completed his entire education, from elementary school to his doctorate, in Belgrade. From 1985 to 2020, he worked at the Institute of Physics in Belgrade, in the Laboratory for Physics of Materials under Extreme Conditions. His areas of scientific work are: materials under high pressure and their applications in astrophysics, low-dimensional materials, and systems of correlated electrons.

In 2004, he co-organized an astrophysics workshop in Leiden, the Netherlands; its proceedings was published in the USA. For years, he was a Member of the International Scientific Committee of the Solid State Physics Summer School, organized by the Bulgarian Academy of Sciences. He participated in the international scientific cooperation of Serbia with Italy and France. He is fluent in English, French, and Italian. He is the author of over 100 scientific papers, seven of which are book chapters.

His email address is vladan@ipb.ac.rs.
